

RACQUETBALL ASSOCIATION OF IRELAND

Anti-Doping Officer Report 2023

- No anti-doping issues reported during last season.
- All members of the National team advised to become familiar with Therapeutic Use Exemption forms (TUE) and research as required if they are on medication
- Digital wallet forms and other information are available on the Racquetball Ireland under the 'Governance' tab. A med-check function from 'Sport Ireland' is available there and should be used as appropriate.
- I attended an 'Anti-doping' seminar on the Sport Ireland campus along with Johnny O Keeney in January this year. This was very informative and both of us got a lot from it. One of the most important topics discussed was the importance of 'bringing athletes along with you' and encourage them to report any suspicions on drug use and also put forward any suggestions or solutions to issues.

Jimmy Gannon.

RAI Anti-Doping Officer
